

Accessing Class Statistics

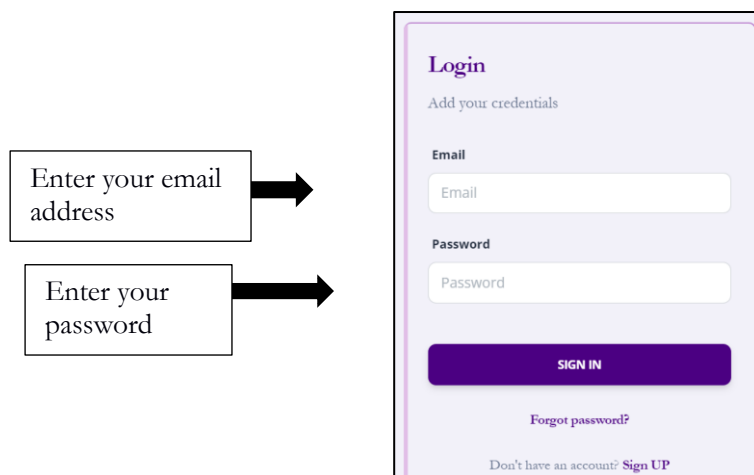

KENET has setup a class statistics page <https://stats.conference.ke/> that generates comprehensive reports on all virtual classes undertaken on Moodle LMS. To view the class statistics:

1. Use <https://stats.conference.ke/> then click on “Sign up” for an account
2. Fill in the form details

The screenshot shows the 'Register' form on the KENET Class Statistics page. The page header includes the KENET logo and the text 'KENET Class Statistics'. In the top right corner, there are links for 'Sign In' and 'Sign Up'. The main heading is 'Register', followed by the instruction 'Add your credentials'. The form contains five input fields: 'Title*' (with a dropdown arrow), 'First Name*', 'Last Name*', 'Email*', and 'Password*'. Each field has a placeholder text corresponding to its label.

3. Wait for account verification and activation via email provided during the sign-up. Once your account is approved, you will receive an email from KENET.
4. You can now sign in using your email and password. The email should be the one used during registration.

The diagram illustrates the login process. On the left, there are two boxes: 'Enter your email address' and 'Enter your password'. Arrows point from these boxes to the 'Login' form on the right. The 'Login' form has the heading 'Login' and the instruction 'Add your credentials'. It contains two input fields: 'Email' and 'Password'. Below these fields is a purple 'SIGN IN' button. At the bottom of the form, there is a link for 'Forgot password?' and a footer that says 'Don't have an account? Sign UP'.

NB: Select “Forgot password” to re-set your password

5. Once logged in, you will be presented with your institution’s data.

Name of institution

6. Access the report

Class Name	Institution	Class Origin URL	Class Participants	Created Time	Created By	Status
------------	-------------	------------------	--------------------	--------------	------------	--------

THE END
